How to recover from Error 1603 on installation of BullCharts (on Windows XP).

Problem Description:

During installation of the BullCharts software onto a Windows XP computer, the Microsoft SQL installation might fail with an error code 1603.

Resolution:

1. Go to the Windows Control Panel > Add/remove Programs
    and uninstall the following in the order shown:

    - Programs starting with the words Microsoft SQL Server.
    - MSXML Parser 6.0 (XP Only)
    - Microsoft .Net Framework 2.0 (XP Only)

2. From the CD install the following in the order shown:
    From the CD folder: ...Program Files/BullSystems/BullCharts/SupportFiles/

    - dotnetfx2 (for XP Only)
    - msxml6 (for XP only)
    - SQLEXPR32

3. Then run the BullCharts setup again.
