*Price charts summarise the underlying
opinions and emotions of the market participants.
Every chart tells a story.
It pays to understand the stories in the price charts.*

This presentation...

This presentation was originally prepared for a private traders group (South Yarra) in November 2014, and then revised and enhanced for presentation to the Melbourne AIA meeting in February 2015.

The AIA group were also keen to see some stock picks/tips, so these are included in the last 25 or so slides.
