This presentation...

...is all about a very common strategy that many share market investors utilise, often without realising it.

The approach is to identify the uptrending shares, and ride the uptrend. It's not quite that simple in reality; but this presentation explains many of the things to bear in mind.

This 2-hour version of the earlier presentation was prepared for the U3A Nunawading Summer School, January 2019.

Originally presented to U3A (May 2018), and then for the ASA Seminar day in Melbourne in August 2018.
