About this presentation

This set of slides has been assembled from multiple presentations (with many new slides) for an international Convention/Workshop in Kuala Lumpur, July 2022; and with further update tweaks for the Melbourne ATAA webinar, August 2022, and some significant updates for STANZ in May 2023.

Candlesticks and candle patterns

- One candlestick on a price chart summarises the price action in one period (day, week, etc.);
- A *single candle* can tell a whole story about the opinions of the market participants;
- Multiple candles can form a specific *candle pattern* and tell even more of a story;
- But there are lots of candle patterns, so
- How to go about it?
- Here's an in-depth look at candle patterns.

Today's agenda

- Technical analysis “fundamentals” recap
- Candlestick basics:
 - origins
 - bars and candles
 - candle features (body, shadows)
 - candle interpretation
- Candle patterns – there are many!
- Candlestick addition
