

Celebrating 25 years of Technical Analysis in Australia (1990-2015)

# Silver Anniversary National Conference

15-17 May 2015, Gold Coast

Embracing the Bulls

Avoiding the Bubbles and Bears

***Learn how to embrace the stock market bulls and avoid (or exploit) the market bubbles and bears***

Understand past stock market bubbles, starting with the Tulip Mania bubble and crash of the 1630s, and the infamous Silver Bubble and crash of March 1980.

15-17 May 2015 — Three full days of focus away from the day-to-day distractions of work and family (and sport)

- ✓ Progress your wealth generation journey learning from the experts.
- ✓ Leverage your investment successes off the successful tactics and strategies of others.
- ✓ See and hear well-respected and well-known overseas and local speakers.
- ✓ Meet informally with like-minded investors and traders to share even more ideas and strategies.

The beautiful Gold Coast location offers thousands of opportunities to travel around in your spare time, or your holiday time. It's so easy to use the G:link light rail service that stops at the front of the hotel (at Florida Gardens station). The G:link services a 13km stretch from Gold Coast University Hospital in the north to Broadbeach in the south. Or travel further afield in Queensland.

**Conference venue:** Crowne Plaza Hotel Surfers Paradise  
2807 Gold Coast Highway, Surfers Paradise  
(incorporating the Four Winds 360° revolving restaurant)

*View from the Four Winds Revolving Restaurant.  
Lunch here one day included for conference delegates (photo courtesy of Crowne Plaza)*

**Join us for the Conference Dinner:** Great Aussie Gourmet BBQ by the pool. Included for all delegates. Partners are very welcome. Fantastic opportunity to mix with like-minded investors and traders at a casual and relaxed dinner.

### *A brief look at the conference presenters and their sessions*

**Tim Walker** (specialist in stock index futures, commodities and Gann) will overview bubbles and busts over the years, and explain the tendency of human nature to swing between extremes. He will also explain WD.Gann's methods, with application to current markets. (Gann analyst – [www.timwalker.net.au](http://www.timwalker.net.au))

**Mathew Verdouw** (Market Analyst software) will look at cycle identification using inter-market principles and relative strength, looking at asset classes, cycle timing, and how the Wall Street professionals use the same techniques that private traders can employ. (Market Analyst – [www.mav7.com/about-us](http://www.mav7.com/about-us))

**Nick Radge** (trading system designer) will explain how to combine Elliott Wave theory and traditional technical analysis for use on today's markets. (The Chartist – [www.thechartist.com.au](http://www.thechartist.com.au))

**Rande Howell** (specialising in the emotions and psychology of investing and trading) will help us understand more about the emotions and psychology of trading and investing, and emotional intelligence. He will also cover the development of the emotional skills for you to maintain interior discipline under the stress of investing and trading uncertainty. (Traders State of Mind – [www.tradersstateofmind.com](http://www.tradersstateofmind.com))

**Vito Henjoto** (Ichimoku Kinko Hyo specialist) will explain the Ichimoku technical analysis charting tools he uses to identify key levels for major currencies and indices. (Zenifix – [www.zenifix.com/#!/team/galleryPage](http://www.zenifix.com/#!/team/galleryPage))

**Daryl Guppy** (unique experience in trading both Western and mainland Chinese markets), will talk about forex trading for equity traders, and introduce the ANTSSYS trading method. He will also focus on the impact of the China markets, including special insights into the Shanghai Exchange. (Guppy Traders – [www.guppytraders.com/gup37.shtml](http://www.guppytraders.com/gup37.shtml))

**Andrew Gibbs** (Halifax NZ and STANZ) will look at systems trading using both fundamental and technical analysis to optimise performance. He will explain concepts from the funds management industry, and an approach to using mechanical trading. (Halifax New Zealand – [www.halifaxonline.co.nz/about-us/](http://www.halifaxonline.co.nz/about-us/))

**Jordan Eliseo** (experienced and knowledgeable about the gold industry working for ABC Bullion) will highlight where the potential bubbles are, as well as the pockets of opportunity in investment markets today. (ABC Bullion Company – [www.abcbullion.com.au/investor-centre/profile](http://www.abcbullion.com.au/investor-centre/profile))

**Alan Clement** (trading systems designer and AmiBroker specialist) will look at selecting the best tools, using a quantitative approach to seeking alpha, to optimise entry into, and exits from, the market. (Helix Trader – [www.helixtrader.com](http://www.helixtrader.com))

**Cesar Alvarez** (quant trader and AmiBroker specialist) will walk through the quantitative process he uses to create a strategy from beginning to end. He will also explain his quantitative process to develop internet research into trading systems, including the potential pitfalls. (Alvarez Quant Trading – [www.alvarezquantrading.com/bio/](http://www.alvarezquantrading.com/bio/))

**Dining and accommodation:** The conference fee includes lunches on three days, and the Saturday night Conference Dinner for all delegates. Special accommodation rates at the Crowne Plaza have been negotiated for delegates (make your reservation at conference registration time). There are plenty of dine-out facilities close to the hotel, and budget-conscious folk will be able to find many alternative accommodation options nearby ranging from single-bed flats, to multi-bedroom apartments.

#### **More details and conference registration**

On the web: [www.ataa.com.au/conference/](http://www.ataa.com.au/conference/)  
or scan this QR code with your smart phone:-
