

# Where's the market going?

***Analysis using contemporary technical analysis tools***

October 2013

***Robert Brain***

## Introduction & Housekeeping

### About this presentation

- This set of slides includes an analysis of the Aussie market (the All Ordinaries index), utilising Robert's "4 Windows" approach.
- THIS version was delivered to the two ATAA chapters in Toowoomba and Melbourne in October 2013. Of course, the webinar delivery required some special slides, while the Melbourne delivery included a lot of prompted audience interaction.
- Earlier versions were presented in Jan 2013 in Melbourne, and in July in Brighton.
