

The slide features a blue header bar at the top. Below it, a light blue box contains the title "Exit strategies" in large black font. Underneath the title, a yellow box contains the question "Does the ideal exit strategy exist?". To the left of the yellow box is a yellow 3D box with drawers, labeled "Free!", "Members", and "Free!". To the right of the yellow box, the date "November 2015" is centered. Below the date is a small black silhouette of a person and a quote: "Price charts summarise the underlying opinions and emotions of the market participants. Every chart tells a story. It pays to understand the stories in the price charts." To the right of the quote is a faint background image of a price chart. At the bottom left, there is a copyright notice: "© Copyright 2013-2015, Robert B. Brain, Brainy's Share Market Toolbox — www.robertbrain.com". At the bottom right, it says "Revision: 4a".

Exit strategies

Does the ideal exit strategy exist?

November 2015

Price charts summarise the underlying opinions and emotions of the market participants. Every chart tells a story. It pays to understand the stories in the price charts.

This presentation...

This presentation introduces a number of exit strategies that can be deployed to help protect our trading capital and profits.

Originally prepared for the U3A Manningham (Stockmarket Group) in November 2013, and has been updated for the BullCharts User Group in October 2014.

Latest update Oct 2015 for BCUG and then ATAA Newcastle in November 2015.

 Introduction

Exit strategies?

Is this important:

- capture profits?
- protect capital?

 

2

Exit Strategies

Are these important?

Is one more important than the other?
