Trend Trading ASX Shares

Robert Brain
May 2018

Price charts summarise the underlying opinions and emotions of the market participants. Every chart tells a story. It pays to understand the stories in the price charts.

This presentation...

...is all about a very common strategy that many share market investors utilise, often without realising it.

The approach is to identify the uptrending shares, and ride the uptrend. It's not quite that simple in reality; but this presentation explains many of the things to bear in mind.

Presented to U3A (May 2018), and then for the ASA Seminar day in Melbourne in August 2018.

Additional comments?

When Robert publishes presentation slides such as this set, there is usually a version of the slides available for Brainy's Share Market Toolbox (premium) members which includes additional explanatory comments — referred to as the “Speaker Notes”.

Each page in the set has the slide on the top half of the page and the “notes” on the bottom half (as shown at right).
