Revision: 1

Introduction

Special comments

This set of presentation slides is for the ASA seminar day “*Share strategies to suit your investing style*” in Melbourne, August 2018.

This slide set comprises many more slides than we will be able to deliver in the time available on the day; but they are offered here in order to provide a more detailed explanation of the topic for the ASA Seminar participants.

The slides that will be displayed and discussed on the day are flagged with a green tick in the bottom left corner of the slide.
