This presentation...

... was originally prepared soon after the GFC of 2007-2008, as a 6-hour seminar to help investors understand the share market, and what it is, and how it works. There are a few things that would be of great interest to many investors... things that are not talked about, including the so-called "big money" and how they operate.

This 2-hour version of the earlier presentation was prepared from the 6-hour seminar, especially for the U3A Nunawading Summer School, January 2019.

This set of "Speaker Note" slides is available for Brainy's Share Market Toolbox paying Premium subscribers.
